

## Energy Conservation (Episode #101)

Strand: Stewardship

Name \_\_\_\_\_

Read "Rae Rae Wonders" and Answer the Questions

“Boy it sure is a hot day here in Naturia. I can really feel the heat on my red fur maybe it wasn’t such a good idea to take a long walk, but I’m almost home at the Housetree. I know that it will be nice and cool inside the Housetree since Mr. Housetree keeps it that way for all of us Enviropals! that live there. He told all of us that he keeps the inside of the Housetree at a very comfortable 78 degrees. 78 degrees...mmm.. I wonder why he picked that number? Oh that’s right, 78 degrees is the perfect number to both cool and to conserve energy, that’s why he picked 78 degrees. He’s so smart! What is the temperature inside your home?”

## Energy Conservation (Episode #101)
