

## Noise Pollution (Episode #103)

Strand: Pollution

Name \_\_\_\_\_

Read "Rae Rae Wonders" and Answer the Questions

“I just love going for a walk here in Naturia. It's sure nice and peaceful and quiet out here. All I can hear is the birds singing and the leaves rustling as the wind blows through the trees. Yup it's really nice. Sometimes, the animal friends that I live with in the Housetree can be so loud that I can't even hear myself think! They don't realize that they are being so loud until I have to ask them to quiet down. Sometimes, Mr. Housetree has to ask them himself. Once Mr. Housetree asks them they become as quiet as a mouse! So, it's times like these that I can just sit and listen to nature that I really enjoy. Yup, there's nothing like a little peace and quiet. I wonder if the other animals in the Housetree feel the same way... I wonder?”
